👤 SUMMARY

Front-End Developer with **2** years of experience building responsive, fast, and scalable web applications using **React.js**, **Next.js**, and modern **JavaScript**. Proven ability to reduce load times by up to **40%** and deliver seamless user experiences. Passionate about performance optimization, clean code, and continuous learning.

💼 WORK EXPERIENCE

Software Developer (Frontend)

📅 May 2025 - Present

Shadhin Music Limited

🌐 <https://win2gain.com>

- Developed interactive, user-focused features for **Win2Gain**, a gamified quiz and online gaming platform serving thousands of daily users.
- Led the frontend implementation of key modules, including **Telco SDK integration**, enabling seamless quiz & game access via mobile operators.
- Built real-time features like “**Play with Online Friends**” using **Socket.IO**, significantly boosting user engagement.
- Collaborated closely with the backend team to integrate **RESTful APIs**, resolve performance bottlenecks, and ensure smooth data flow.
- Conducted regular **code reviews**, followed GitLab workflows, and contributed to a clean, maintainable codebase.
- Structured large-scale projects using **React.js**, **Next.js**, **Zustand**, and **SCSS**, with reusable components and modular architecture.
- Optimized performance through **code splitting**, **lazy loading**, **image compression**, and **PWA support**, resulting in a **40% improvement** in load times.

Junior Web Developer

📅 March 2024 - April 2025

SINIBANGLADESH PVT.LTD

🌐 <https://loischloe.com.bd>

- Designed and developed modern, responsive user interfaces using **React.js** and **Next.js**, increasing user satisfaction by **35%**.
- Migrated a traditional **WordPress** website to a **Next.js** single-page application (SPA), improving page speed score by **70%** and significantly enhancing UX.
- Improved website performance by **40%** by implementing advanced optimization techniques such as **code splitting**, **image optimization**, **lazy loading**, and **asset compression**.
- Integrated **Appwrite** as a backend-as-a-service solution for secure authentication, file storage, and real-time database services.
- Managed both global and component-level state using **React Context API** and **Redux**, ensuring scalable and maintainable application logic.
- Utilized **Git** and **GitHub** for efficient version control, following proper branching strategies and conducting code reviews to maintain code quality.

■ PERSONAL PROJECTS

DIGIMART (E-Commerce Store)

[GitHub\(Server\)](#)

[GitHub\(Client\)](#)

[Live Link](#)

Developed entirely as a solo project, including full-stack architecture, UI/UX, and deployment. DIGIMART is a fully responsive e-commerce platform where users can explore a wide range of products—from electronics and fashion to home essentials—optimized for performance and mobile usability.

Key Features:

- Engineered a secure and scalable backend with **RESTful APIs**, **user authentication**, and **data management capabilities**.
- Crafted a responsive, SEO-friendly frontend to deliver seamless browsing across all devices.
- Built an intuitive **admin dashboard** for efficient product, order, and user administration.
- Integrated **Stripe** for fast, reliable, and secure payment processing.

Tech Stack:

- **Front-End:** React.js, Redux, React Router DOM, Styled-Components, Formik, Yup, Axios
- **Back-End:** Node.js, Express.js, MongoDB, JWT, Stripe, Cloudinary
- **Deployment:** Render (Backend), GitHub (CI/CD)

🔧 SKILLS & COMPETENCIES

Front-End:

HTML, CSS, Tailwind CSS, JavaScript (ES6+), TypeScript, React.js, Next.js, Redux, Zustand, Styled-Components, Shadcn/UI, React Router

Back-End & Database:

Node.js, Express.js, MongoDB, Mongoose, RESTful APIs, JWT, Prisma, Appwrite

Tools & Platforms:

Git, GitHub, GitLab, Vercel, Render, Cloudinary, Stripe, Axios, React-Hook-Form, Zod

Core Concepts:

Responsive Web Design, Web Performance Optimization, SEO Best Practices, Cross-Browser Compatibility, Debugging, PWA, Authentication & Authorization

🎓 EDUCATION

BSC in Computer Science and Engineering.

(Atish Dipankar University of Science & Technology)

Diploma In Engineering.

(Technical School And College, Natore)

💎 COURSE & CERTIFICATE

THINK IN A REDUX WAY

Learn with Sumit, 2023

[certificate](#)

Introduction to Front-End Development

Meta, 2023

[certificate](#)

Introduction to Cloudinary for Node.js Developers

Cloudinary, 2023
