👤 SUMMARY

Frontend Developer with **2+** years of experience building scalable web applications using **React.js**, **Next.js**, and modern **JavaScript**. Experienced in developing high-traffic consumer platforms, migrating legacy applications to modern architectures, implementing real-time features, and delivering responsive, performance-focused user experiences. Passionate about clean code, maintainable architecture, and continuous learning.

📁 WORK EXPERIENCE

Software Developer (Frontend)

📅 May 2025 - Present

Shadhin Music Limited

🏠 Panthapath, Dhaka

- Developed interactive features for **Win2Gain**, a gamified quiz and gaming platform serving thousands of daily users.
- Collaborated within a 15-member product team (part of an 80+ employee organization) to deliver new features and platform improvements.
- Integrated React/Next.js frontend modules with a native mobile SDK, enabling Win2Gain experiences inside partner telecom applications.
- Delivered embedded web experiences for telecom partners, including **Grameenphone**, **Robi/Airtel**, and **Banglalink**.
- Built real-time multiplayer functionality using Socket.IO.
- Implemented push notifications using Firebase Cloud Messaging (FCM).
- Developed reusable UI components with Ant Design, Axios, Zustand, and SCSS.

Junior Web Developer

📅 March 2024 - April 2025

SINIBANGLADESH PVT.LTD

🏠 Uttara, Dhaka

- Sole frontend developer responsible for designing, developing, and maintaining the **React.js** and **Next.js** frontend for the **LOIS CHLOE** e-commerce platform.
- Migrated a legacy WordPress e-commerce platform to Next.js with **Appwrite Cloud**, significantly improving maintainability, SEO, and overall user experience.
- Implemented Server-Side Rendering (**SSR**), Static Site Generation (**SSG**), and Incremental Static Regeneration (**ISR**) to optimize performance and search engine visibility.
- Built responsive, mobile-first user interfaces using React.js, Next.js, and modern JavaScript.
- Optimized application performance through code splitting, image optimization, lazy loading, and asset optimization.
- Integrated Appwrite Cloud for authentication, file storage, and backend services.
- Managed application state with React **Context API** and **Redux** to build a scalable, maintainable architecture.
- Utilized Git and GitHub for version control, feature branching, and collaborative development workflows.

■ PERSONAL PROJECTS

DIGIMART (E-Commerce Store)

digimart-ecommerce.onrender.com

Built a **full-stack e-commerce** platform featuring secure authentication, an admin dashboard, Stripe payment integration, and responsive user interfaces. Designed RESTful APIs and deployed the application using Render.

Tech Stack: React.js, Redux, Node.js, Express.js, MongoDB, JWT, Stripe, Cloudinary.

🔧 SKILLS & COMPETENCIES

Front-End: HTML5, CSS3, Tailwind CSS, SCSS, JavaScript (ES6+), TypeScript, React.js, Next.js, Redux, Zustand, Styled-Components, Shadcn/UI, React Router, Tanstack Router

Back-End & Database: Node.js, Express.js, Nest.js, MongoDB, PostgreSQL, Prisma, Drizzle, JWT

Libraries & Tools: Axios, Socket.IO, SignalR, Firebase Cloud Messaging (FCM), Git, GitHub, GitLab, Vercel, Render, Cloudinary, Stripe

Core Concepts: Responsive Web Design, Performance Optimization, SEO, Server-Side Rendering (SSR), Static Site Generation (SSG), Incremental Static Regeneration (ISR), Progressive Web Apps (PWA), Authentication & Authorization, Cross-Browser Compatibility, Reusable Component Architecture

🎓 EDUCATION

Bachelor of Science in Computer Science and Engineering (B.Sc. CSE)
(Atish Dipankar University of Science & Technology)
Graduated: 2026

Diploma In Engineering (Power Technology)
(Technical School And College, Natore)
Graduated: 2020

💎 COURSE & CERTIFICATE

THINK IN A REDUX WAY
Learn with Sumit, 2023 [certificate](#)

Introduction to Front-End Development
Meta, 2023 [certificate](#)

Introduction to Cloudinary for Node.js Developers
Cloudinary, 2023 [certificate](#)
